

Introduction of Subscription product:

Pre Newsletter Manager is very useful product for the webmasters who want visitor to subscribe for their newsletters and daily information. Simply install this product and send newsletters daily to subscribe users. Very easy to use and install. Script contains both user and admin end. Webmasters can manager news letters, subscribers and personal information from admin panel. On user there is a simple subscription page code which webmaster can any where in a website.

Further details are listed below with the help of screen shots. Here is the Screen which Admin will see after login (Admin Home Page).

Now the explanation of each link is described as below.

Add Newsletter: Admin can create and save as many newsletters as he can. Here is the screen shot of Add Newsletter form. 3 Fields admin has to fill Subject, Date, and Mail Body. In Mail Body admin with the help of RTE can use fonts, color, size, images, text formatting, bullets and other things like this of its choice.

View Newsletter: When admin will click on “View Newsletter” a page will open with a list of Newsletters. From here Admin can choose which newsletter he wants to send. In List there are 2 options.

- Send to All
- Send to Selected

Send to All: When admin will click in from of a newsletter “Send to All” then that newsletter will go to all subscribers.

Send to Selected: When admin will click on this option it means that newsletter will only goes to those members to whom Admin had selected for Newsletter. This option will be really helpful to Admin when he want to send a newsletter to new subscribers or to those who requested for newsletter again or cannot receive newsletter.

Admin can also delete Newsletters as many as he will like.

Delete Newsletter(s)

NOTE:

I) If you cannot see link "Send To All" it means that you have already had to wait for next 24 hours.

II) If you cannot see link "Send To Selected Member" then there are two reasons: 1) You have completed your today's quota 2) You haven't any subscriber in

List of Subscribers: Admin can view a list of subscribers. He can search them alphabetically. Also from this list Admin can pick (with the help of check boxes) subscribers to whom it wants to send Newsletter. Here admin can also Delete Subscribers.

View Selected List: Here will be the list of those subscribers to whom Admin want to send newsletter. Admin can also undo its selection.

[A][B][C][D][E][F][G][H][I][J][K][L][M][N][O][P][Q][R][S][T][U][V][W][X][Y]

NOTE: Click on Alphabet to view users starting with specific character

Name	Email
<input type="checkbox"/> Muhammad Usman Arshad	sh_muhammad@hotmail.com
<input type="checkbox"/> PreProjects.com	info@preprojects.com

Delete From List

Send New 200 Emails: With the help of this feature Admin can send 200 emails of the Day as already mentioned that only 200 emails per day are possible. So this link will work as a trigger to be fire for next 200. It will not allow sending more than 200 for a day means link will become disable when trigger has been fired.

▶ Send New 200 Mails

Members in Schedule: Automatically there will be an Alert for Admin that how many members are still there to whom he has to send newsletter yet.

▶ 8Member(s) in Schedule

It's all from us, if there is any confusion in your mind you can ask.
